IMPORTANT NOTICES

We continually seek to improve the specification and design of our boats, so alterations and upgrades to specifications take place frequently.

Whilst every effort is made to keep all sales literature up to date and accurate, it should not be regarded as an infallible statement of current specifications and does not constitute an offer for the sale of any boat.

PERFORMANCE FIGURES & ESTIMATES

Power figures quoted in our literature for engines is measured as crankshaft output.

Performance estimates are given in good faith but are in no way guaranteed for any boat. Dirt on the bottom of the boat, damage to propellers, engine tuning, external water and air temperatures, and the weight of crew, fuel and water carried can all adversely affect performance. For these and other reasons, we can give no performance guarantees.
